

Weekly list of planning applications for week ending 13 June 2022

Please note

1. This is a list of applications registered in our computer system in the period given above. It is not a list of all applications received in the office up to the above date. There are always a number of applications in hand waiting to be checked for completeness, and others, which cannot be registered until additional information is obtained from an applicant.
2. The 'documents' hyperlink is provided to enable you to access the application documents via our website. Although these are normally available as soon as the Weekly List is published, there may be occasions where there is a slight delay before individual case documents are published on line. If the documents link does not work, please try again in a day or so.
3. The statutory period for dealing with applications is normally 8 weeks unless an applicant agrees to an extended timescale.
4. In the case of notifications relating to works to trees in Conservation Areas, we have to respond within 6 weeks, and usually reply much sooner.
5. There are some classes of application where public notification is not normally carried out and these include:
 - Advertisements
 - Certificates of Lawfulness of proposed use or development (CLOPUD)
 - Certificates of Lawfulness of existing use or development (CLEUD)
 - Prior consent by Telecommunication Code System Operators
 - Demolition of non listed building outside a Conservation Area
 - Minor details complying with a condition of planning permission
 - Notifications relating to works to trees in Conservation Areas
6. We currently determine approximately 90% of applications in less than the statutory 8 weeks, and some 35% within 6 weeks. Some 10% are determined within 4 weeks, although these would normally be cases where no public notification is required.
7. All comments received before an application is determined are taken into account.

Any comments on any application type listed in paragraph 4 above should be made by return, as they are not normally subject to public notification, and will normally be dealt with as quickly as resources permit.

If you have any comments to make on any other item on this list it would be advisable to do so within 21 days of its receipt.

Application No : **21/02375/PCLE** Type: Certificate of Lawfulness Existing
(Planning Portal Ref: **PP-10225153**)
Date received : 20/05/2022 Highways: **Ward: Hyson Green And Arboretum (May 2019)**
Application by : Mr Declan Gallagher 47 Selly Park Road Birmingham B29 7PH

Location : **113 Tavistock Drive Nottingham Nottingham City NG3 5BE** (Grid Ref: E 457575 N 342095)
Proposal : Tree a) Beech Tree
Two overhanding branches (as marked in photo) to be removed from beech tree as these are encroaching on
property boundary. A large branch broke off during the winter storm and caused damage to my
greenhouse.
Tree b) Ash - Fell
Tree c) Sycamore - Fell
Tree d) Cherry - Fell
Removal of these 3 tall slender trees which have grown from saplings. All three trees are between 45 - 50 ft high
and are 30 ft from my house. If they went over in the wind, they would land on my house. These
trees have a low amenity value and are growing in space occupied by 3 mature trees.
If permission is not granted to remove the trees then permission is sought to reduce the height of these trees by 50-
60% to make them stable.
Tree 3) Ash
One overhanding branch to be removed from Ash tree (as shown in picture) which is encroaching on property
boundary. Pieces have broken off during the winter and in fact there is a broken branch hanging
in the tree waiting to fall.

Location : **Nottingham Trent University Clifton Campus Clifton Lane Nottingham NG11 8NS** (Grid
Ref: E 454886 N 335296)
Proposal : Group G70 on FPCR tree survey extract. As discussed with NCC Tree Officer 25/04/2022 the
works are required to upgrade NTU underground sewer which is in poor condition. NTU require
to form two manholes chambers within close proximity to Lime and Field Maple trees within the
group. The location has been marked out on site by pegs painted red. This will form the
connection for the new sewers. The pipework that runs beneath this group of trees will be
retained, root cut, and relined to enable discharges from the Clifton Campus to Statutory
Authorities Drainage Network. This reusing of the existing pipework beneath the trees group will
minimise the impact to this tree group. While the excavation will be formed working from the
outside up to the trees it is anticipated that excavation for the chambers will require cutting of
main roots do to there close proximity both a Field Maple and a Lime Tree Trunk. Baker
Associates will oversee the work and have advised that the closest trees to these excavations
one being a Lime and one a Field Maple will require to reduced to stumps or removed entirely,
If main roots are impacted the adjacent Field Maple or Lime slightly further away it is hoped that
lopping of trees will be sufficient to allow them to be retained and regrow. The works to this
location will be overseen by Baker Associates Ecologists.

Application No : **22/01068/PWC** Type: Works to trees in Conservation Areas
(Planning Portal Ref: PP-11279770)
Date received : 24/05/2022 Highways: **Ward: Mapperley (May 2019)**
Application by : Mr Benjamin Jablonski 19 Ebers Grove Nottingham NG3 5EA United Kingdom
Agent : None
Location : **19 Ebers Grove Nottingham Nottingham City NG3 5EA** (Grid Ref: E 457295 N 341928)
Proposal : Photographs and plan attached showing the location of the five trees which border the garden.
Following works are requested:
Tree 1 (Acer): no major works, cosmetic pruning to height and width required as it is a little oversized and overhangs adjacent gardens.
Tree 2 (Olive): removal - believed to be undermining a boundary wall, and is smothered by adjacent Acer and Laurel trees. Leaves are only present on uppermost exposed branches.
Tree 3 (Laurel): no major works, cosmetic pruning to height and width required as it is a little oversized and overhangs adjacent gardens.
Tree 4 (unknown, sapling): removal - a young tree with branches only on its uppermost portion. Blocks morning light.
Tree 5 (Holly, sapling): removal - a young tree with branches only on its uppermost portion. Blocks morning light.
Case Officer: Mr Shaun Phillips Telephone : 0115 8765712
