

Weekly list of planning applications for week ending 26 October 2018

Please note

1. This is a list of applications registered in our computer system in the period given above. It is not a list of all applications received in the office up to the above date. There are always a number of applications in hand waiting to be checked for completeness, and others, which cannot be registered until additional information is obtained from an applicant.
2. The 'documents' hyperlink is provided to enable you to access the application documents via our website. Although these are normally available as soon as the Weekly List is published, there may be occasions where there is a slight delay before individual case documents are published on line. If the documents link does not work, please try again in a day or so.
3. The statutory period for dealing with applications is normally 8 weeks unless an applicant agrees to an extended timescale.
4. In the case of notifications relating to works to trees in Conservation Areas, we have to respond within 6 weeks, and usually reply much sooner.
5. There are some classes of application where public notification is not normally carried out and these include:
Advertisements
Certificates of Lawfulness of proposed use or development (CLOPUD)
Certificates of Lawfulness of existing use or development (CLEUD)
Prior consent by Telecommunication Code System Operators
Demolition of non listed building outside a Conservation Area
Minor details complying with a condition of planning permission
Notifications relating to works to trees in Conservation Areas
6. We currently determine approximately 90% of applications in less than the statutory 8 weeks, and some 35% within 6 weeks. Some 10% are determined within 4 weeks, although these would normally be cases where no public notification is required.
7. All comments received before an application is determined are taken into account.
Any comments on any application type listed in paragraph 4 above should be made by return, as they are not normally subject to public notification, and will normally be dealt with as quickly as resources permit.

If you have any comments to make on any other item on this list it would be advisable to do so within 21 days of its receipt.

Application by : Mr Gordon Fisher 23 Lenton Avenue The Park Nottingham NG7 1DX
Agent : None
Location : **23 Lenton Avenue Nottingham NG7 1DX** (Grid Ref: E 456053 N 339513)
Proposal : We are applying for permission to carry out works to trees within our property. These works are for maintenance purposes only and you have given consent for these on several occasions in the past, the last time we believe was on 31st July 2014 (Application No: 14/01678/PWC). On this occasion it is intended that the works will be carried out by William Clifford of Aart De Groot.

I attach a site plan (not to scale) on which 23 Lenton Avenue is shown edged red. The trees which are the subject of this application are shown marked T1, T2, T3. These are not protected by any TPOs. The descriptions of the proposed works, are taken from Aart De Groot's quotation, as follows:-

T1 - A large and mature Beech tree. - Gentle reduction and shaping, particularly over the summer house and to the crown. Raise the lower parts of the tree to provide ground clearance of approximately 4 metres.

Inspect the Cobra bracing system and replace if necessary.

T2 - Line of Hawthorn, Hollies and Privet along the northern site boundary. - Reduce tops and trim sides back to previous levels and generally trim to shape.

T3 - Magnolia Tree - Gently prune top of tree and around the sides to take branches away from neighbouring roofs and built

Location : **6 Oundle Drive Nottingham NG8 1BN** (Grid Ref: E 454391 N 339009)
Proposal : - Willow - Pollard of Willow Tree to previous pollard cut due to large current footprint.
- Large Conifer - Removal. The conifer severely restricts space to adjacent silver birch and and Cherry Plum, as well as restricting light to the rest of the garden. We propose to completely remove the tree and replace with a shrub. The shrub will be decided once it is clear how much space is available, but will potentially be hydrangea or Rhododendron.
- Silver Birch - Reduce to shape to approximately previous pruning points as suitable. Crown raise to raise above laurel bushes (if necessary as work progresses).
- Cherry Plum (1) - shape and thin to remove water shoots. Approx 1.5m reduction in height.
- Cherry Plum (2) - remove overhanging branches from neighbours.
- Laurel - Reduce and shape bush. Reduce height to approximately 8ft and reduce sides in hard prune.
- Sycamore - Gentle prune to keep size in check. Reduction in shape of approx 1.5m.
- Cotoneaster - minimal snipping of high branches (less than approx 1cm diameter) to reduce height by approx 1.5m.
